

Vogue Café prepares five-star, fine-dining culinary creations that blow past the 'café' in its name.

It is also a café, but the quality of the food served is really beyond expectations, and comparable to a leading gourmet restaurant.

For Vogue Café, I'm going to start with the simple and build up to the awesome!

Firstly, it is hard to find.

Or, perhaps, it is where you might not expect it to be.

But once you're there, the location is a dream!

The next thing that went WoW! is the above photo. You see those boxes? Yes, those are take-away boxes from Vogue Café... and I am now sure that every visit to Dubai Mall I will take-away a little something delicious just to take home one of those boxes!

And then there's the ambience of the Vogue Café... just stunning in its elegance!

And now finally I can talk about the food... or better still, I can just present you with part of your selection for the main course, and you will immediately discern that these are not your regular coffeeshop fare:

1. Grilled organic salmon, broccolini, stuffed gnocchi, cherry tomatoes
2. Roast fillet of sea bass with wild mushrooms and ricotta cannelloni
3. Grilled lamb chops with harissa spices, cucumber mint raita and chickpeas done two ways
4. Charcoal-grilled New York sirloin with beetroot three ways, green beans and caramelized onion
5. Vogue Café char-grilled wagyu burger served with onion relish peppercorn umami and homemade fries and you're not even half-way done!

I went for the wagyu burger, and I will tell you it was one of the best burgers I have ever tasted!

Here it is:

Here is an interactive map of Vogue Café location inside Dubai Mall:
