

Prague is a magical city!

We went the scenic route, always happy to get a 2-cities-deal, with a super-cheap and convenient Wizz Air flight!

While the Wizz Air network is formidable indeed, we wanted to make the most of our trip, so...

We enjoyed a couple of nights in Budapest, then hopped on the train to Prague!

Not any train... 1st class sleeper, with our own overnight private cabin, a classy restaurant wagon, and full views all the way!

This is the way to travel in Europe!

Once in Prague, our adventure continued. What a majestic capital city! The old district downtown was fabulous in its lovely alleyways and interesting shops.

And the history and architecture reminded us of why Europe is such a wonderful destination every step of the way.

Above all else, Prague is a city of the river – the mighty Vltava flows right through it.

Prague is a classic destination – if you haven’t been, then put it at the top of your list.

And if you have, time for a second trip!

The details in the city are always intriguing, and so artful.
