

Wake Evolution... the name says it all!

Providing wake boarding sessions and lessons to riders of all levels. Choose between wakeboarding through the stunning Eastern Mangroves of Abu Dhabi!

Let's start off with beginners...Never tried wakeboarding before? Our newbie was up on the first go! The coaches run a few exercises before taking you out on the boat, and we found that this helped immensely.

Tried wakeboarding a couple times before? Our beginner was up and landing jumps within minutes!

And then there's the pros...

The locations are very carefully picked out to allow for the flattest waters possible, enabling an easier, smoother wake – and essentially, allowing you to reach your full potential!

Your certified, friendly, motivating coaches know exactly how hard to push you and give you tips with every run, while at the same time ensuring you enjoy your session to the max. Wake-evolution owns their own wake-board professional boats, especially suited for wake-boarding.

Aside from the enjoyment of the extreme sport, it's also a great full-body work out! Not to mention the uplifting atmosphere Wake-evolution has! Good vibes all around...

Overall, wake-evolution offers a perfect opportunity to get your adrenaline pumping by trying something new, or to further your skills!
