

With a superb ambience, Teatro is a top choice for a unique night out, especially with someone you love or want to get to know deeper.

I would go as far as declaring Teatro as the most romantic fine-dining destination in Dubai – that's how impressive the atmosphere is!

Besides the intimacy of the decor, Teatro stands out for the sophistication in its devotion to fine drinks,

with a fantastic and superbly-stocked walk-in wine cellar,

and dedicated cocktail bar counter.

Time slows down at Teatro, and you are transported into another dimension of living – where love is breathed in, necessary as oxygen, and priorities in life are redefined and refocused.

Do not underestimate the power, and value, of a special dinner at Teatro – as its namesake implies, the theater exists to produce magical moments, and Teatro does this with a winning combination of setting the mood and then delivering an excellent meal.

Wasabi-tempura prawns, and, below, a deliciously-prepared chicken with pineapple and pandan – superb!

The menu is as vibrant as the wine list, and a cacophony of delicacies representing several world cuisines will vie for your attention.

Will you enjoy Japanese...

... or Italian...

... or Thai...

... or Indian... or Arabian...?

The choice is yours, but, really, let your fancy decide, as dining at Teatro is very much about exploration - of the senses, including taste, of course, but also of the heart.

Take a chance.

Lower your guard, and let your real self shine through.

Teatro at Towers Rotana in Dubai

Above all, Teatro is a place to let go of yourself and just enjoy the ride.

Dessert is sure to follow.

And that, too, can be an emotional discovery - so tempting and satisfying.

And so Teatro plays with your emotions and tastes, offering a superlative dining experience – a “night out”, a special occasion, like going to the theater, where the person you are upon exit is not the same person who entered.

For an evening of discovery and of love, Teatro is the place.
