

"Around the World" Friday Feast at Sheraton Grand Dubai

It is astounding that within an international feast fit for royalty, with live food stations representing a dozen countries and a deliciousness that is stellar, hosted within a luxury spacious dining hall that would be the envy of any five-star hotel, still the most memorable detail of the evening was the kind attention of the staff.

Indeed, any hotel professional at the highest level of service will admit that the difference between a regularly marvelous and a truly exceptional unforgettable experience lies with the people who work there.

And the good people at the Sheraton Grand Dubai are there to deliver!

In fact, the combination of table service and served buffet - where you point to what you want and the attendant plates it for you - was exceptional at Friday Feast's "Around the World" evening brunch.

Anything you desire, presented with elegance and fine attention to detail.

Basically, the concept is that of a culinary voyage of world exploration - starting in the Middle East and India...

... spinning by Indonesia and China... with authentic - and spicy! - renditions of those countries' cuisines...

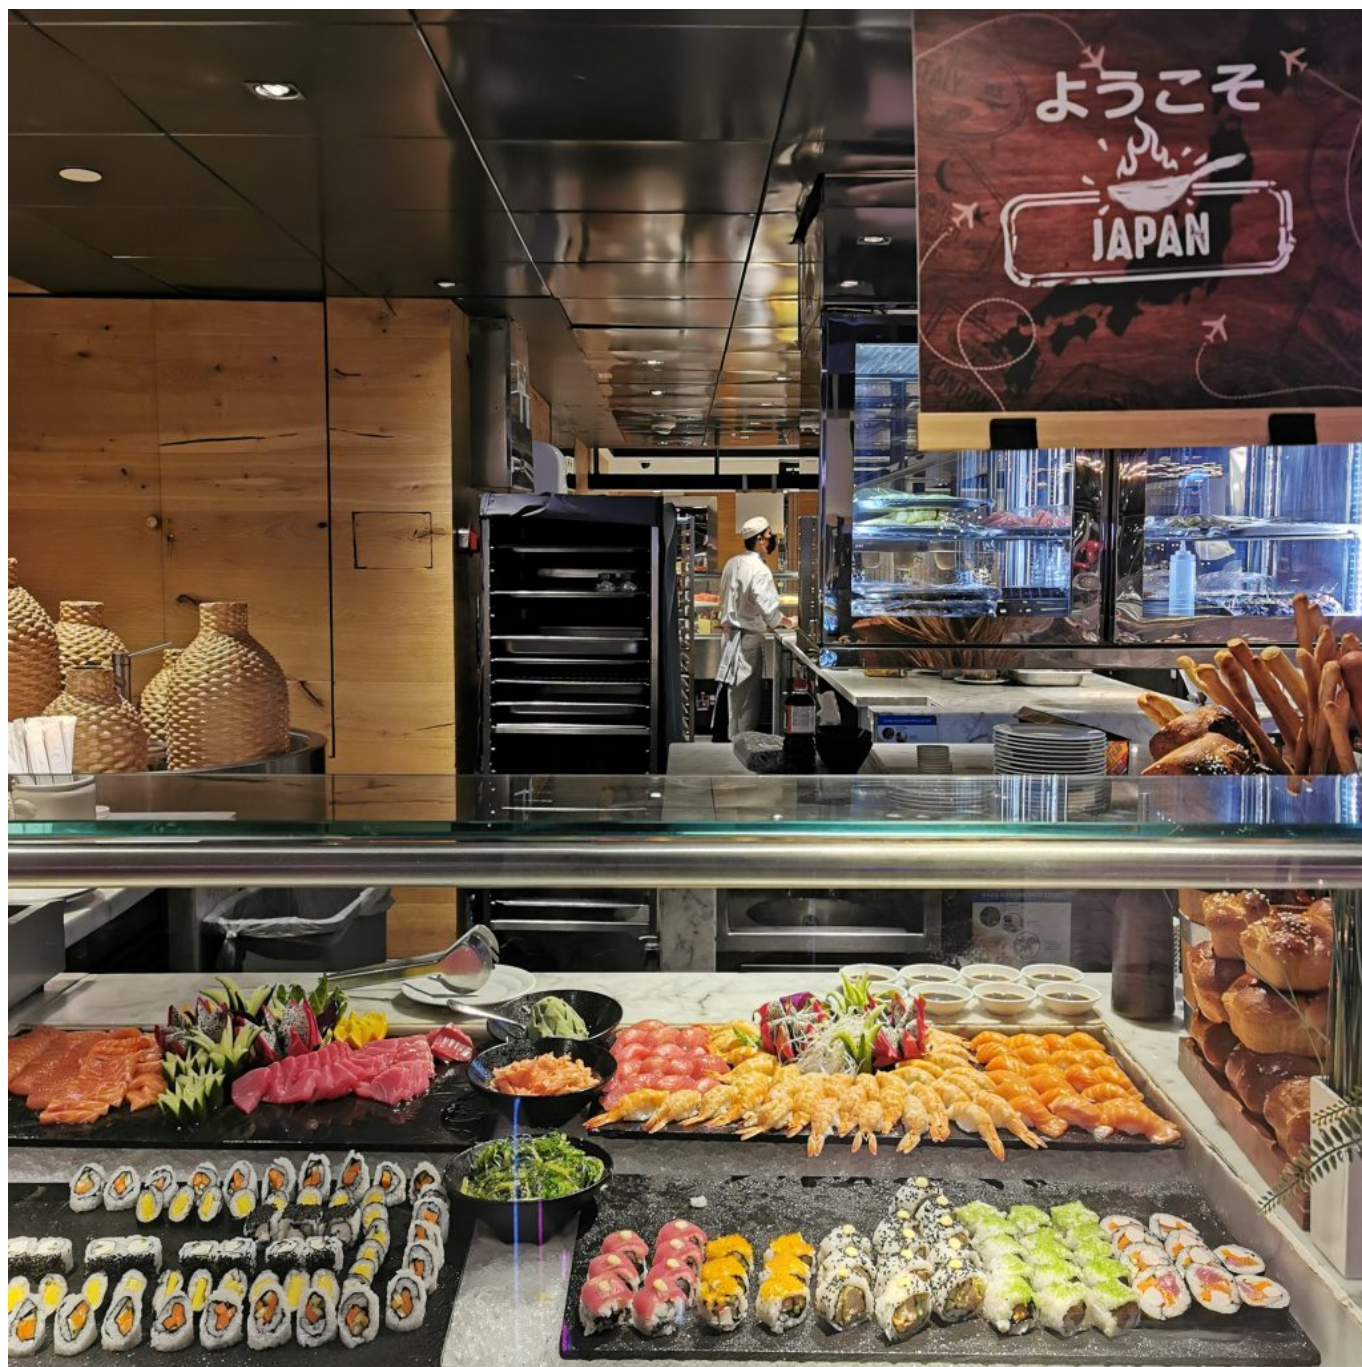

... with stops in the United Kingdom, Greece, and Italy...

... Japan...

Oh, and with intermittent visits to several live drink stations along the way...

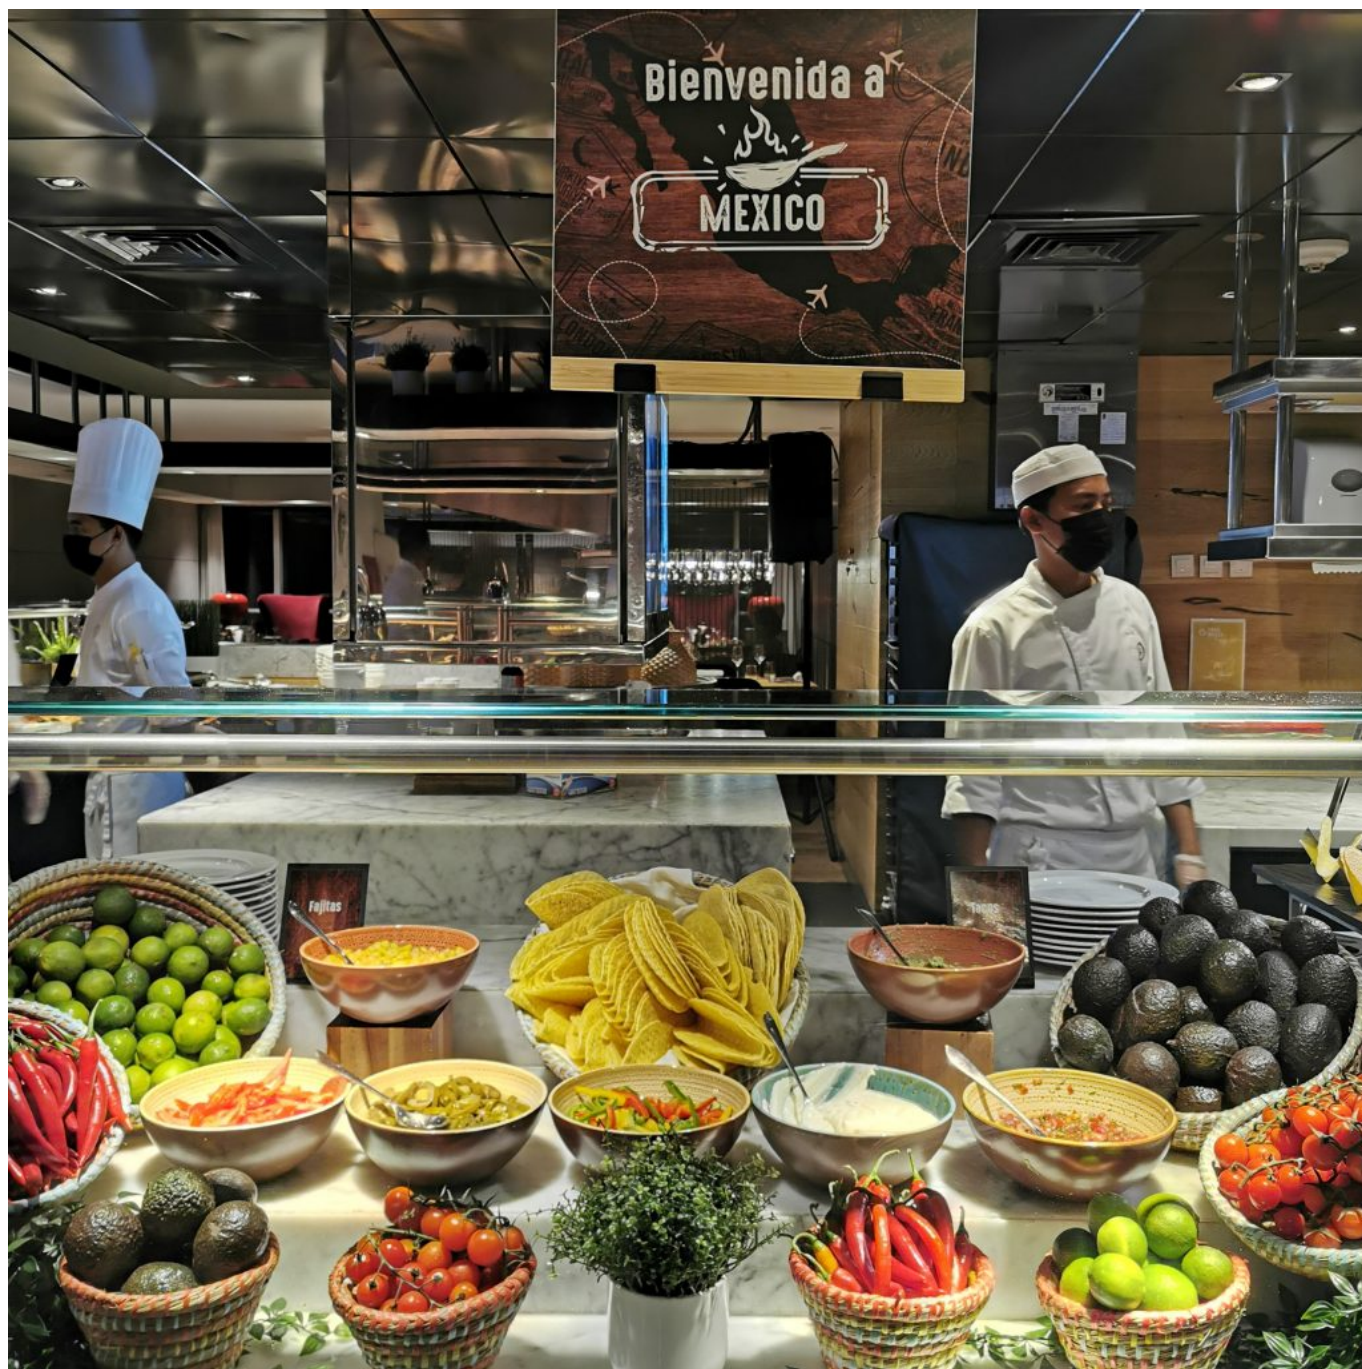

which offer an extra dimension to the evening brunch experience!

But your gourmet adventure is not over!

Italy and Mexico await your stopover...

... and France expects you eagerly, too.

And all of this in an environment of superlative spaciousness, so important nowadays.

Where your table can be separate and offering the choice of privacy for your group,

or be center-stage, with live entertainment!

And then there's desserts!

From delectable nibbles of delights...

...to spectacular decadence of yum!

But I did mention the professional attention and kindness of staff... though I think I will leave that as a surprise for you to experience personally, with this little tease, if you're lucky...
