

Black Tap's creative chefs out-did themselves with their latest limited edition menu - a Spring Lamb Burger and brand-new Lotus Ramadan Crazyshake®!

But really, with their amazingly burgerlicious menu, you can't go wrong at Black Tap whatever you point at on the day.

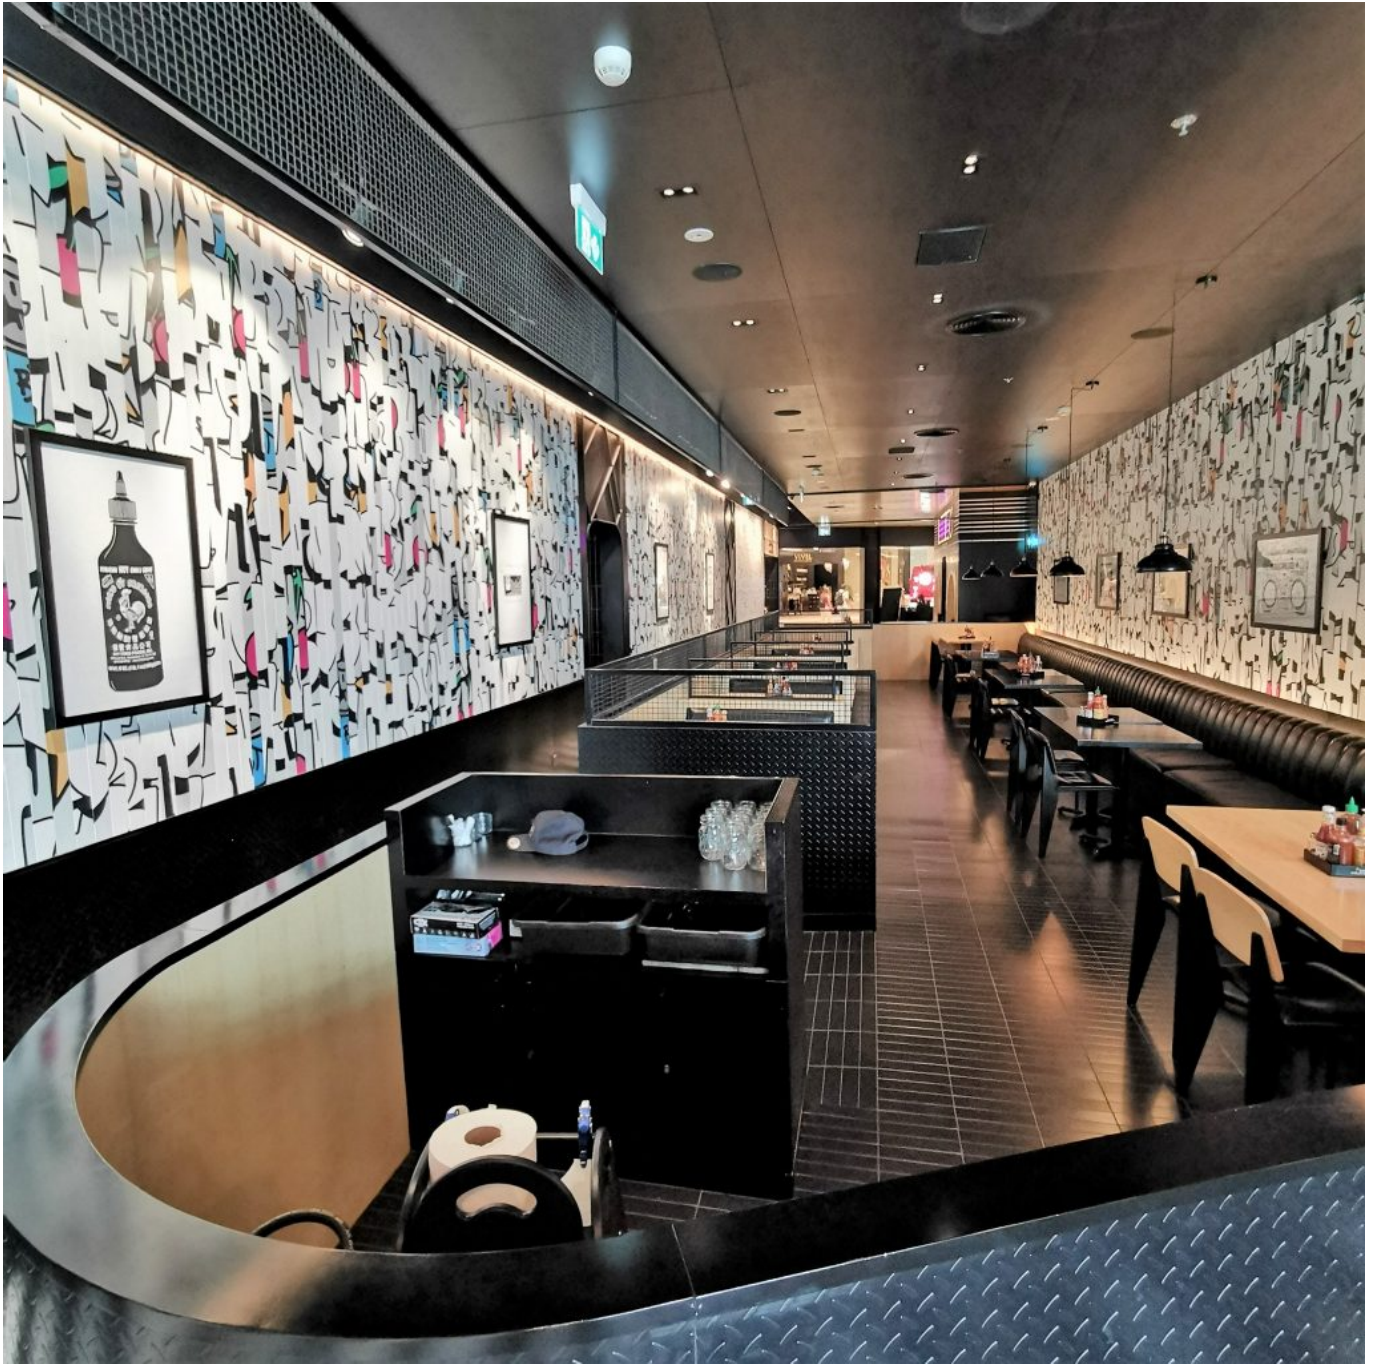

The Dubai Mall Black Tap outlet goes from this

to this

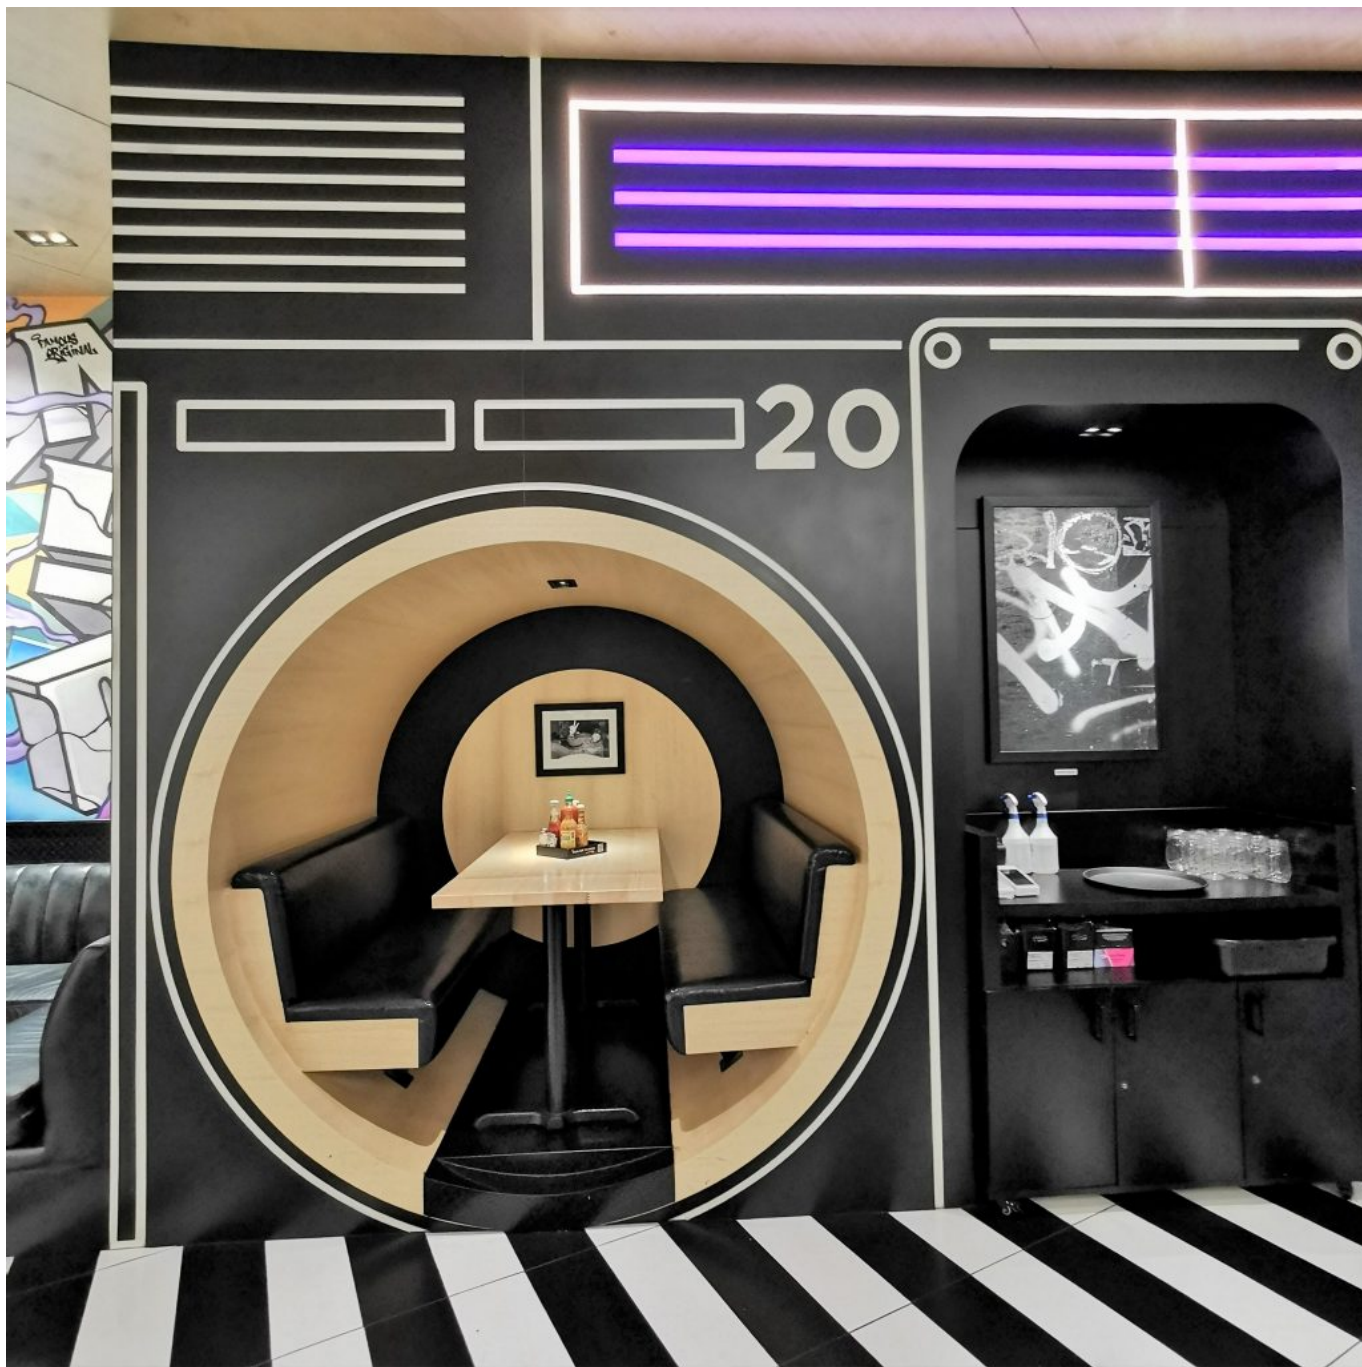

with many cool spaces in between!

So you're sure to find a nook for yourself and your friends.

And outside on the terrace, you're dining next to the Burj Khalifa!

Let's start with the craziness that made Black Tap famous - on Instagram and social media, and with memorable laughs and surprised looks when these outrageous and massively yummy Crazyshakes® hit the table!

Behold the special edition Lotus Ramadan CrazyShake®!

It is the Mount Everest of milkshakes...

And I love how Black Tap is always coming out with special enhancements and limited edition specialities - its creativity is really unlimited.

And I also appreciate the great balance between being a hip and original New York City style burger joint, and upscale dining in terms of quality ingredients, service, and hospitality.

I actually came in especially for the Spring Lamb Burger!

Black Tap is famous for its juicy beef burgers, but lamb? I had to try, and so should you!

The good folk in the Black Tap kitchens did not disappoint - excellent presentation, and just looking at that platter you know this is going to be phenomenal.

The giant pickle is there, the freshest green lettuce, a thick slice of tomato, Black Tap signature fries - but then there is a special mint chimichurri sauce, which is just made for lamb, and a sprinkling of pink pickled onions!

Oh yes! Can't wait to chomp on this!

In fact, it was excellent, and a must for lamb lovers - cooked just right and pink (your server will ask how you want your lamb prepared: rare, medium, medium-well, well-done... professional!) - and the choice of Swiss

cheese was spot-on: not too strong to take away from the thick seasoned lamb patty, but instead it enhanced its flavors - look closer: a top quality burger.

A masterpiece!

And add to that the delicacies offered on the regular Black Tap menu, and you have a feast at your fingertips.

Above, the Atomic Shrimp, and below, the Guac and Chips - classics!

And then of course there's that balance of cool hipness vs quality dining mentioned previously - it's not an easy thing to pull off, by the way - and you can complete your meal with excellent coffee, for instance.

Nobody shows up with a paper cup and machine-instant coffee at Back Tap - the barista brews it for you beans up!

While dining in an attractive restaurant space in a prime location...

Overall, a visit to Black Tap Dubai Mall is a sure win – extremely delicious burgers and fries, with specials coming your way at important moments in your life; an elegant dining area but also hip, and a promise of top-quality service and ingredients – and I’m not even mentioning the Crazyshakes®, and the outdoor terrace right by Dubai Fountain!

Get in there quick!
