It makes a big difference to the enjoyment of an evening meal during the game, when there is the whole Crowne Plaza F&B in support!

But the best part were the passion and vibes that created the atmosphere - imagine, our waitress, the lovely Ms Martina, comes from Argentina!

And not only she wears her country's football flag proudly, but the South American Fútbol culture runs deep in her veins - certainly no need to explain to her what off-side was when the first goal was annulled!
