

Every so often there comes a genius idea...

What if we placed our restaurant directly on the JBR beach, and I mean on the actual beach sand - in front of Dubai's most amazing view!

And what if we served exquisite Chinese dimsum that is so delicious that it cannot be found in the whole of Dubai?

And then we made it available for super-fast delivery and take-away, in professional and attractive custom-made boxes and packaging?

As well as offer a special, cozy, intimate table for two, directly in front of one of Dubai's most iconic landmarks, Dubai Eye?

Oh yes!

Weekend at Jixiang Dimsum at JBR The Beach, Dubai

In that case, you would be living the dream as Jixiang Dimsum is!

A very clever cloud kitchen, installed beachfront in JBR, at a few steps to the actual Gulf – Jixiang offers delicious, freshly-steamed dimsum dumplings, udon noodles and the softest Pao buns.

There it is.

That is Jixiang Dimsum restaurant!

And I can tell you there is no restaurant in Dubai that has a table with a more experiential view of Dubai Eye as Jixiang's...

The lovely Ms Sai is in there to receive your order – in person or via the main delivery apps; and the food is prepared at a luxe level of deliciousness. See for yourselves:

Crispy duck, with Hoi Sin sauce, within a soft Bao bun, garnished with vegetables and who knows what other magical ingredients... absolutely delicious!

You may receive it in a colorful take-away box at home, but believe me, if it were plated and served at any of Dubai's top restaurants, it would fit right in.

A spectacular rendition of a crispy duck pao!

And same with the dimsum... not only excellent wrapping, though using a heavy dough to make sure it reaches you fresh, but also utilizing gourmet ingredients and combinations, such as enoki mushrooms and truffles!
