

Weekend at Kimpo, Korean Bar at the Conrad Dubai

At the prestigious Sheikh Zayed Road address of the Conrad Hotel, tucked away from the exquisite five-star lobby, Kimpo offers a sneak-peak into the funky Korean nightlife - combining an artistic K-pop decor with really delicious Korean dishes!

Kimpo in fact is a lot more than a bar - it's a magic travel machine, where you enter and find yourself in another universe.

And this is Kimpo!

The trifecta of hopping hot bartending, succulent Korean food, and hyper-trendy environment can only be enhanced by a fourth dimension: the music!

But, let us have a better look around...

A brilliant and unique look, but the edginess does not overpower the ease and comfort – so the overall result is satisfying and relaxing, even though it may appear a little jarring at first glance.

Actually, Kimpo is a great place to chillax after work, or to get to know someone special a bit better...

And then the good people staffing the bar pull out all stops to make sure they're mixing at a stellar level!

The food menu is surprising in its variety.

And they're not really bar bites - unless in Seoul they enjoy first-class full dishes as "bites"!

And yet they're also not heavy dishes, either - and they are perfect for sharing...

So it's a very clever balance, and one that the delicious flavors take charge!

For instance, see the baos:

They arrive well-presented - fries are piping hot and covered with a savoury powder of yum - and a massive size sauce is also provided.

It's clear the quality from the good folk at the Conrad are behind the scenes in the preparations!

And then take a closer look, and wow! That's pretty impressive!
